

EBV Lends a Helping Hand to Troubled Youths

With the help of its partners and sponsors, EBV Elektronik created and sold high-quality bicycle tricots and pants for a fundraiser to support Fluchtpunkt, a non-profit organization for troubled youths. A check for 3,000 euros was presented to the organization in May.

Fluchtpunkt provides temporary lodging (up to three years) to high-risk children and youths experiencing alienation, domestic violence and lack of parental care. They are taken in by families in and around Munich, Germany, and supported by qualified and skilled social workers. ●
